WOULD YOU TRADE THE UNITED STATES CONSTITUTION IN -- FOR THIS?

This page lists conditions the New World Order is forcing upon you:

- **No national Army, no Navy, no Air Force, and no State Militias.**

No national defense. Complete disarmament. Military bases dismantled. The world government will command the only army in the world. No nation will be able to challenge it. (Pub. Law 87-297 and State Dept. Publ. No. 7277, Blue Print for the Peace Race). Bases allowed to remain are for use of United Nations world army.

- **No more states, no more counties, and no more special districts.**

The former structural framework of American government is being replaced by international regional units of United Nations administrative control. Act is underway to abolish American states and their subdivisions (see L.A. Times 8-25-92 article: Dis-United States; 10 Region Substate District Planning Map; Security and Prosperity Partnership). Merging Canada, United States and Mexico into one North American Community. No more local control.

Former California Speaker of the Assembly, Willie Brown, offered a proposal to abolish cities and counties. (L.A. Times October 25, 1987). County Regional Planning Agencies are working to dissolve county governments. Considering itself to be the "Federal World Government", the United Nations now addresses countries over the world as its "states". Regional government has always been international U.N. government.

- **No more American 1789 United States Constitution.**

Several socialist replacements for our Constitution and Bill of Rights have been written to replace the 1789 U.S. Constitution and are now on standby. (See Center for the Study of Democratic Institutions' "World Constitution", the United States "Newstates Constitution", the "Federation of the Earth" Constitution, "United Nations Charter", and "U.N.I.D.O.", etc.) any one of which could be forcefully imposed under circumstances of an economic depression or the Security and Prosperity Partnership agreements.

- **No more 1791 Bill of Rights.**

The International Bill of Rights, also known as the Human Rights Treaties (communist in structure), were written to replace the 1791 Bill of Rights. No more recognition of unalienable rights and unrepealable endowments from the Creator. Rights in the Human Rights Treaties are man made rights, repealable by man, and can be modified by socialists and communists, according to their international law.

- **No more Declaration of Independence.**

On January 30, 1976 a ceremony was held by the World Affairs Council in Philadelphia. Some members of the United States Senate and House of Representatives signed a "Declaration of INTERdependence" "to establish a New World Order". The New World Order dissolves our independence.

- **No more state, national, or personal sovereignty.**

The checkless, cashless society is requiring that a computer chip the size of a grain of sand be placed inside of a credit card to govern individuals. Later it will be inserted under the skin of the right hand. As state and national boundaries disappear, the rights of the people also disappear. All privately owned firearms will be banned. Without firearms, no sovereignty of any sort remains.

- **No more system of self-government.**

Elected representation to be replaced by a non-representative government. **No more right to vote.** The globalists tell us "Privatization is now 'an idea whose time has come'. The knowledge, communication, and computer industry can make political representatives obsolete." ...Willard Garvey to Ronald Reagan. A self-appointed elite intends to rule in the "regions" which are to replace the American states. An oppressive social order to be installed which does not permit people superior power over New World Order principles or rulers.

- **No more right to recall, initiative, or referendum.**

These functions of Constitutional government are not provided for under international government management. No right to control those who will have a *greater hold* over people's lives under a new world order than did the former public officials.

- **No more private ownership of land.**

United Nations policy on land states, "Land, because of its unique nature and the crucial role it plays in human settlements, cannot be treated as an ordinary asset, controlled by individuals..." (See National Association of Realtors, July 12, 1982 announcement of FIABCI effort to change U.N. policy).

- **No more right to withdraw.**

The New World Order is being written to be "**In Perpetuity**". There are no withdrawal rights. [Even though there are no withdrawal rights, repeal of the United Nations Participation Act of 1945 (Public Law 264, 79th Congress, 1st Session) and its 1949 Amendments, would dissolve US membership in the New World Order].

- **No more checks and balances*.**

No more assured *freedom of speech*; no freedom of religion; no right to fully operate *your own business*; no assured right to choose where you will live or where you will work; no assured right that you may raise your child according to *your own values*; no right to freely use *your own car*; no right to a collective defense; no more "*consent of the governed*" (an American principle of law); and no more *industrial society* for the U.S.A.

Human nature is to be *altered*. The world is to be run by *social scientists*. After the Program for General & Complete Disarmament has been fully effected, military concepts will be integrated on the *regional levels*, and the *militarized governmental system* will prevail, already introduced as the *Homeland Security Agency*.

THAT'S WHAT THE NEW WORLD ORDER OFFERS YOU!

* No checks and balances, no where to turn when evil men take office. The government of the New World Order will become the world's tyrant. There will be no other government to which the people can turn. Many former safeguards will no longer be there for the people to use. "One of the new C.S.D.I. constitutions says: "No person may possess a lethal weapon..." (Article VIII Section 12). World government will fail and prove that it was a serious mistake for the people to allow the New World Order to destroy the 1787 Constitution and the Bill of Rights.

BEFORE YOU ARE DEFRAUDED OUT OF

YOUR INHERITANCE, BETTER TAKE A

LOOK AT WHAT IT DOES FOR YOU.

The United States Constitution:

1. It acknowledges the sovereignty of the Creator, the source*from which we receive our endowment of *inalienable rights*, some of which are the right to *life*, to free *speech*, to freedom of the *press*, to *religion* of our own choosing, to keep and bear *arms*, to trial by *jury*, to *petition*, to seek *justice*, to *privacy*, to own *property*, to *due process*, etc.
2. It is the authority to judge, to act, or to command *against oppressive government*, prohibiting the quartering of soldiers in our homes, unreasonable searches and seizures, double jeopardy, excessive bail, cruel and inhuman punishment, violations of liberty, curtailment of rights, tyrannical rule, etc.
3. It puts *limits* on the power that man can exercise over his fellow man.
4. It reserves to the people and their *posterity* all rights and powers not specifically granted to government.
5. It guarantees a republican form of government in which the people are the *ultimate authority*.
6. It secures the right to liberty, freedom, and the pursuit of happiness.
7. It sustains our independence.
8. It allows people to be *self-governing*, to make decisions, to vote, to choose their representatives, and to judge the laws.
9. It promotes a more perfect union of our states, provides for their *common defense*, and insures domestic tranquility.
10. It furnishes a framework for the necessary separation of powers, sets standards for proper governmental operation, promotes the general welfare of the states, and provides *checks and balances* to maintain the stability and energy of the system.

DON'T SURRENDER IT BY YOUR SILENCE.

*These are natural laws endowed to all people which no man can remove from his fellow man.

We have the best! Let's keep it!

There has been *no consent of the governed* to replace the 1789 Constitution with any other system. "*Consent of the governed*" is a requirement and a principle embodied within the *Declaration of Independence*. Some of the grievances the early colonialists listed in that document against the English King which brought on the *War for Independence* were:

"He has combined with others to subject us to a jurisdiction foreign to our Constitution, and unacknowledged by our laws, giving his assent to their acts of *pretended* legislation.... for taking away our Charters, abolishing our most valuable laws, and altering fundamentally the forms of our governments..."

"When evil men take office, the whole gang will be in collusion.....they will keep the people in utter ignorance, and steal their liberty by ambuscade."Patrick Henry
