

**THE GOVERNOR'S 1975 MASTER SET OF
CRIMINAL JUSTICE STANDARDS, GOALS
AND RECOMMENDATIONS
SET FOR CALIFORNIA BY
THE NATIONAL ADVISORY COMMISSION
ON CRIMINAL JUSTICE STANDARDS AND GOALS**

This is a copy of the work by the *Law Enforcement Assistance Administration* while It was headquartered in Sacramento, California. This copy was obtained in 1974 by Joss Cooney. This is what Donna Vinton, a member of one of the 17 Calif. Citizen Advisory Committees told me in Sacramento in 1974: She said she had never missed a meeting of her sub-committee, nor any of the full Citizen Advisory Committee meetings. "The 17 Citizen Advisory Committees never studied the gun issue!" See page 340 which was sneaked in by Governor Ronald Reagan's office to over-ride the protection of the *Bill of Rights*. Page 340 has falsified the people's permission to prohibit and outlaw all handguns. This information is not known by the general public. The *Law Enforcement Assistance Administration* worked over every state in the nation.

Bernadine Smith

When the unauthorized sheets were added to this document, it must have been done hurriedly. Please note that the Index refers to the page entitled "HANDGUNS IN AMERICAN SOCIETY" as being Page 339. The page entitled "A NATIONAL COMMITMENT TO CHANGE" is referred to in the Index as being Page 340. This inconsistency suggests that the people who added the two false pages were not very thorough in their deceptive practice.

PREFACE

In 1973, the National Advisory Commission on Criminal Justice Standards and Goals published six reports in which standards, goals, recommendations, and priorities for improvement of the criminal justice system were presented and discussed. The six volumes are entitled:

- Criminal Justice System
- Community Crime Prevention
- Police
- Courts
- Corrections
- A National Strategy to Reduce Crime.

Because of the attention given to these documents, and the larger numbers of persons in every state and territory who desired the Commission's work as a point of reference, the Office of National Priority Programs deemed it advisable to put all of the standards in one document to facilitate their use.

This document contains all of the black-line, bold-print standards, goals, priorities, and recommendations of the Commission, arranged in the order shown above. The volume, A National Strategy to Reduce Crime, is a summary of the major standards contained in the other volumes. It does, however, contain some recommendations not found in the other volumes. These are given in the last section, which is entitled, "Other NAC Recommendations." The Commission's work as displayed herein is intact. None of their standards and goals has been knowingly omitted. It is hoped this document will assist those who desire to use these standards as a basis for developing their own ideas for reformation of the justice system and reduction of crime.

Handguns In American Society

RECOMMENDATIONS

Enforcement of Current Laws

The Commission recommends that existing Federal, State, and local laws relating to handguns be strenuously enforced. It further recommends that States undertake publicity campaigns to educate the public fully about laws regulating the private possession of handguns.

Penalties for Crimes Committed with a Handgun

The Commission urges enactment of State legislation providing for an extended prison term with a maximum term of 25 years for committing a felony while in possession of a handgun.

Stop-and-Frisk Searches

The Commission urges the enactment of State legislation providing for police discretion in stop-and-frisk searches of persons and searches of automobiles for illegal handguns.

Prohibiting the Manufacture of Handguns

The Commission urges the enactment of State legislation prohibiting the manufacture of handguns, their parts, and ammunition within the State, except for sale to law enforcement agencies or for military use.

Prohibiting the Sale of Handguns

The Commission urges the enactment of State legislation prohibiting the sale of handguns, their parts, and ammunition to other than law enforcement agencies or Federal or State governments for military purposes.

Establishing a State Gun Control Agency

The Commission urges the enactment of State legislation establishing and funding a State agency authorized to purchase all voluntarily surrendered handguns, and further authorized to register and modify handguns to be retained by private citizens as curios, museum pieces, or collector's items.

Prohibiting the Private Possession of Handguns

The Commission further urges the enactment of State legislation not later than January 1, 1983, prohibiting the private possession of handguns after that date.

A National Commitment To Change

FEDERAL ENCOURAGEMENT

Permanent Advisory Committee

The Commission recommends that LEAA establish an Advisory Committee on Criminal Justice Standards and Goals to support the standards and goals implementation effort.

PROFESSIONAL, CIVIC, AND EDUCATIONAL SUPPORT

The Commission recommends that national professional and civic groups and appropriate university interests support implementation of the standards and goals.

Evaluating Programs.

In implementing important standards or groups of standards, the Commission urges that evaluation plans be designed as an integral part of all projects.
