THE DISAPPEARING UNITED STATES OF AMERICA

"Americans are so stupid, they don't even know what is happening to them!" Statement by a foreigner visitor.

THE DISUNITED STATES

21st-Century North America?
Some believe countries will help renew the continent's boundaries, dividing America, breaking a Pacific Rim bloc and merging the U.S.-Mexican border.

STAGE 1 The way it was before the New World Order took over.

STAGE 2 The Transition Stage: United Nations regions were formed to facilitate objectives to be achieved in Stage 3. Planned "Interstate Compacts" and Multi-State regions will be used to gradually eliminate traditional state boundary lines.

STAGE 3 The disappearance of the states - once "united". Former U.S. land converted into new countries. State Dept. geographers claim that treaties are causing old boundaries to disappear. Look for a New York-Vermont-Quebec (Canada) merger via World Heritage Sites.
21st-Century North America?

Some believe economics will help redraw the continent's boundaries, dividing America, creating a Pacific Rim zone and blurring the U.S.-Mexican border.

- Six geographers brainstorm the borders of the 21st Century. The changes may be among the most radical ever.

"What we're dealing with is the re-creation of countries," says William B. Wood, State Department geographer. But he also sees a tendency to keep status quo.

"The notion of boundaries as we've known them, in terms of absolute sovereignty and legalities, will in time dwindle."
