Executive Order 12803—Infrastructure Privatization
April 30, 1992

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to ensure that the United States achieves the most beneficial economic use of its resources, it is hereby ordered as follows:

Section 1. Definitions. For purposes of this order: (a) "Privatization" means the disposition or transfer of an infrastructure asset, such as by sale or by long-term lease, from a State or local government to a private party.

(b) "Infrastructure asset" means any asset financed in whole or in part by the Federal Government and needed for the functioning of the economy. Examples of such assets include, but are not limited to, roads, tunnels, bridges, electricity supply facilities, mass transit, rail transportation, airports, ports, waterways, water supply facilities, recycling and wastewater treatment facilities, solid waste disposal facilities, housing, schools, prisons, and hospitals.

(c) "Originally authorized purposes" means the general objectives of the original grant program, however, the term is not intended to include every condition required for a grantee to have obtained the original grant.

(d) "Transfer price" means: (i) the amount paid or to be paid by a private party for an infrastructure asset, if the asset is transferred as a result of competitive bidding; or (ii) the appraised value of an infrastructure asset, as determined by the head of the executive department or agency and the Director of the Office of Management and Budget, if the asset is not transferred as a result of competitive bidding.

(e) "State and local governments" means the government of any State of the United States, the District of Columbia, any commonwealth, territory, or possession of the United States, and any county, municipality, city, town, township, local public authority, school district, special district, intrastate district, regional or interstate governmental entity, council of governments, and any agency.
To erect a global government, it becomes an objective of the federal government and big business to unravel the substance of the constitutional govt. system. State officials are complicit.
the policies of the executive departments and agencies are consistent with the principles, criteria, and requirements of this order. The Office of Management and Budget shall review the results of implementing this order and report thereon to the President 1 year after the date of this order.

Sec. 6. Preservation of Existing Authority. Nothing in this order is in any way intended to limit any existing authority of the heads of executive departments and agencies to approve privatization proposals that are otherwise consistent with law.

Sec. 7. Judicial Review. This order is intended only to improve the internal management of the executive branch, and is not intended to create any right or benefit, substantive or procedural, enforceable by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

Message to the Congress
Transmitting the District of Columbia Budget and Supplemental Appropriations Request
April 30, 1992

To the Congress of the United States:

The District of Columbia Government has submitted two alternative 1993 budget requests. The first alternative is for $3,286 million and includes a Federal payment of $631 million, which is the amount contained in the 1993 Federal budget. My transmittal of this District budget, as required by law, does not represent an endorsement of the contents.

The Congress considers the District's 1993 budget. I urge continuation of the policy enacted in the District's appropriations laws for fiscal years 1989-1993 of prohibiting the use of both Federal and local funds for abortions, except when the life of the mother would be endangered if the fetus were carried to term.
