Collusion: In the early 70's, the state attorneys-general and governors participated under the leadership of the federal attorney-general who had previously launched the Law Enforcement Assistance Administration into national action to design "Standards and Goals" (secretly abolishing firearms of law-abiding citizens). Page 340 was entered into the governor's Master Set of Standards and Goals, and is still an ongoing effort by the governor and state law-makers.

THE PIECES ALL FIT TOGETHER FOR SEDITIOUS ACTIVITY!
