

On the next page is a Survey for members of the United States Senate in Washington, D.C. to complete and return to you. We should use it to flood the offices of our Senators, and if you place your own name and address (at the top, on the right) and ask for a response, it would help greatly to make them aware of the facts and our laws!

Thanks for your cooperation.

**URGENT SURVEY FOR MEMBERS OF THE UNITED STATES SENATE -
WASHINGTON, D.C.**

Dear Senator _____ Date: _____

This survey requires your most prompt attention. Do not delay your response lest you may be counted as being a supporter of the United Nations Arms Treaty.

Please checkmark your answers and return to me at: _____

Place your own address label here. Mail directly to each of your senators.

Are you aware that when our Founding Fathers drafted our system of government, they chose to place our most endangered rights in a *Bill of Rights*, especially *the right to keep and bear arms*, because the contents of a *Bill of Rights* are not subject to the repeal, revoke, or the rescinding process?

Yes No

Do you agree that our most essential rights which support our authority and sovereignty, depend upon (for their own existence) the existence of the Second Amendment of the *Bill of Rights*: the right of the people to keep and bear arms?

Yes No

Have you checked our *Constitution* and realize that *We, the People*, hold a *written guarantee of a republican form of government* (Art. IV Sec. 4) and that all treaties made or that will be made, must be in conformity with the principles that were written in our 1789 *Constitution*?

Yes No

Do you realize that firearms sustain the people's *authority* and *sovereignty*, and if our right-to-arms continues to be increasingly prohibited by President Obama and Secretary of State John Kerry (who are working to pass the United Nations Arms Treaty) *We, the People*, may perilously lose our *authority* and *sovereignty*? Our republic may then be irreversibly destroyed.

Yes No

When you took office, did you swear under oath to support and defend the principles of our 1789 *Constitution* and the *Bill of Rights*?

Yes No

Do you know that the "militia" which is referred to in the Second Amendment of our *Bill of Rights* included the whole people, and they were *required* to own a gun and be trained in the proper use of arms?

Yes No

Do you realize that your support of the *United Nations Arms Treaty* could subject you to impeachment and a denial of your retirement benefits?

Yes No
