

**From:** Second Amendment Committee <[liberty89@libertygunrights.com](mailto:liberty89@libertygunrights.com)>

**Subject:** Crucial information for gun owners (PDF attached)

**Date:** July 27, 2010 9:21:58 PM PDT

If you are concerned about the government's stealth strategy to ban your Second Amendment rights, better get tuned into this expose by the Second Amendment Committee. The anti-gun federal government laid the groundwork over 35 years ago against the people's right to keep and bear arms. They have been waiting for the time they would be able to completely disarm unsuspecting and ill-prepared American gun owners with a Small Arms Treaty (now ready). The time they have been waiting for has arrived! If gun owners do not know how their adversaries intend to operate in destroying the people's safeguards, they will lose in this tragic situation. Remember what Sun Tzu taught about knowing your enemy! Gun owners will not know how to stop the government forces until it is over and too late unless they learn about the Page 340 mechanism which the government has engineered to claim that the people have given THEIR permission for all hand guns to be prohibited. The Page 340 mechanism claims to supersede the authority, protection and power of the Second Amendment. It virtually destroys the Second Amendment! People are depending upon the Second Amendment as their lawful Constitutional safeguard, but it is no longer there for them! The Page 340 mechanism to force people to surrender their guns is "in place". Only the date of the first deadline for prohibitive government orders has been changed from 1983 to a more current date. Open the attachment and learn who the key "engineers" of this fraud have been and are still working to ban ALL guns in a stealth movement. Americans will lose if they do not understand Page 340's power to completely wipe out all citizen owned hand guns.

Please read on Gun Control

The following e-mail message was written in a hurry to document some facts regarding what I was trying to get aired today on a talk show. After I was cut off while trying to explain on the air what we are up against, it seemed essential to put it down on paper so the word could get around and the people could learn just where they stand in this battle against the gun grabbers. The Second Amendment has silently been wiped out. People who are so satisfied that the Second Amendment will protect them, must be told that their safeguards are no longer recognized. The rules have been changed, and the people had better contest the revised "rules". Also one of the leaders in this planned fraud to totally disarm the people, Jerry Brown, is trying to get back into a key spot in California's government to help Obama in his assignment to totally disarm the nation. He was governor once before when California was the lead state when the Law Enforcement Assistance Administration set a secret strategy and plan for totally disarming people. Both Brown and Reagan were the two governors involved in this unlawful act. We need to make a demand for a "Nationwide Investigation Behind the Connection of our Governors and the Gun Grab" and let the nation know the facts so they know WHAT they are dealing with so that they have a fair and even chance to defeat the anti-gun people. Your safeguard that many gun owners are depending upon is going to be denied to you. I sent the following message around to lots of people for my own security after the incident that occurred today. Please read the following typed-in-a-hurry-message I sent around earlier this evening that really had to be told to those who think they are saved by the Bill of Rights. Here goes the notice I sent to my e-mail friends on what I sent as a hurried explanation of today's event:

\*\*\*\*\*

\*\*\*\*\* :

This is a very important e-mail I am sending you. Keep it, in case! This early evening -- Monday, July 26, 2010 -- actually about 6:30 p.m. -- on a radio station out of Fresno, California -- KMJ are the call letters of the station -- while I was getting ready to go out to the grocery store and had the radio on, and I heard a number of people reporting that when they visited their doctors, they were being asked if they owned a gun -- also if they were ever depressed -- and if they ever felt like committing suicide. I knew the doctors were lining people up for gun confiscation if they admitted to ever being depressed. I forget what it was that caused me to call in and get lined up on this talk show, but maybe it was the cynical nature of the people telling what the doctors were doing. They expressed in one way or another that they knew what was up. One man gave the name of a big gun protective organization that was aware of the motive behind these quizzes by doctors: the gun grab is underway! It has already been reported that the Small Arms Treaty will cause the government to force every person to surrender any hand guns they possess. Hillery has signed the Small Arms Treaty already. I felt compelled to call in and get listed as a caller on this talk show. I scribbled main notes that I would have to refer to in order to keep my report clear and understandable. My turn came up on the show. When they called my name I told the moderator these things:

\*\*\*\*\*

\*\*\*\*\* :

"Some years ago, about 1975, the federal government had over all the States the Law Enforcement Assistance Administration (L.E.A.A.) and the moderator acted as if he knew of it. It was put over all the States in the nation with the intention of revising their state's Standards and Goals, the result of which was to make the nation more amenable to control by a military government. I said we saw it happen in California, but L.E.A.A. was assigned to do the same thing to every state. California used 17 working citizen committees. What they did was to be *"the voice of ALL the people of California"*. When these committees were finished with what they were supposed to revise, they were dismissed and these participants were disbanded. Their recommendations and changes of the State's Standards and Goals were put into what was called the "Governor's Master Set". However, after they were gone, and fully dismissed, a page was added at the back of their work in this Master Set, and it was numbered as the 340th Page. This page called for a total prohibition in California of all hand gun ownership, for establishment of a "Surrender Agency" to be created, and for people and cars to be stopped and frisked by police searching for handguns. There was a date when all handguns would no longer be allowed in the State of California. "What this group did was a crime", I said. The L.E.A.A. worked the other States over as well. Reagan was supposed to enact the whole Master Set (including this 340th Page) into law; however we caught Reagan and he, knowing he wanted to run for the presidency, did not sign the proclamation to pull all this into law. The whistle was blown on him, but Jerry Brown (currently trying to run to be California's next governor after Schwarzenegger leaves) was then the governor of California who followed Reagan as governor. Governor Jerry Brown would not allow us to see him on this subject so we could stop him and Page 340 from

going through. I said I spoke to a member of one of the 17 committees who told me that she had never missed a meeting of her sub-committee; nor missed a meeting of the full committees, and she told me that these committees never studied the gun issue!!!!"

\*\*\*\*\*

\*\*\*\*\* :

Some where, as I was telling all this, as clearly and factually and as calmly as possible for anyone to do, the moderator cut me off and said we have to hurry along. I found that I was cut off, even though I could hear him talking about "head lice" -- a new subject he wanted to discuss, but my access had been cut off from the audience. He himself went on about this head lice subject, on and on and on, despite the fact that an interesting highly controversial subject had been under way. The listeners like talking about the gun grab, but he cut me off. I believe the word had gotten to him to have me stopped right now. I do not know exactly when I was cut off, or what part of what I was telling was eliminated. They have a delay switch, I am told, where they can cut off what was already said, but I do not know how far back in seconds they can erase what had been said.

The fact is that the State government had "doctored up" the Master Set, by inserting stuff in it that was never authorized by the people. Not even studied or discussed! But by falsifying the Master Set, they have put themselves in a position to claim that the Second Amendment no longer applies to the nation; *that the "voice of the people", (in the 1975-1976 time period) changed and superseded what James Madison, Patrick Henry and other founding fathers did to protect our natural right in a Bill of Rights.* The Bill of Rights is now superseded by the people of today! This is the basis upon they will justify taking away the guns. I did not get to say that on the air, but it is the fact we must now face. The old deadline on Page 340 is no doubt superseded by a more modern future date. All the callers who were so sure that the government could not take away the guns must deal with the fact that they have been defrauded.

The people do not realize the jeopardy they are in. If a member of the family has depression, or are on certain drugs, that family will lose all their guns. We all know that the Bill of Rights is not subject to repeal, revoke or rescinding, but these anti-gunners have set themselves up with Page 340 as the *"voice of the people"* as their grounds for disarming the people. They will claim that the people have superseded the "Bill of Rights" and have disavowed the Second Amendment!

It appears to some gun owners that this is the reason that Jerry Brown wants to be elected governor. He will play along with the plan for completely disarming every Californian. He will be Obama's buddy for disarming the people of California, and once again be the pilot governor in this act. Page 340 was never taken out of the Master Set. The original deadline on it could easily be updated to suit today's time period and the damage the Small Arms Treaty will do to this nation.

Now, please pass this message on to others on your list to let them know why doctors are engaging in asking questions as well as teachers quizzing the kids in schools about whether they have guns in their homes. You will find Page 340 on my website. [www.libertygunrights.com](http://www.libertygunrights.com) John Kennedy signed Public Law 87-297 in September of 1961 which calls for the elimination of armaments of all kinds. All of our presidents since Franklin Roosevelt have participated in removing our safeguards and rebuilding us toward world government operation.

This is all I can tell you right now. Sometimes it takes a lot of nerve to be faithful to our Founding Fathers, but I had to expose this on the air today. Please keep a record of this.

# **Handguns In American Society**

## **RECOMMENDATIONS**

### **Enforcement of Current Laws**

The Commission recommends that existing Federal, State, and local laws relating to handguns be strenuously enforced. It further recommends that states undertake publicity campaigns to educate the public fully about laws regulating the private possession of handguns.

### **Penalties for Crimes Committed With a Handgun**

The Commission urges enactment of State legislation providing for an extended prison term with a maximum term of 25 years for committing a felony while in possession of a handgun.

### **Stop-and-Frisk Searches**

The Commission urges the enactment of State legislation providing for police discretion in stop-and-frisk searches of persons and searches of automobiles for illegal handguns.

### **Prohibiting the Manufacture of Handguns**

The Commission urges the enactment of State legislation prohibiting the manufacture of handguns, their parts, and ammunition within the State, except for sale to law enforcement agencies or for military use.

### **Prohibiting the Sale of Handguns**

The Commission urges the enactment of State legislation prohibiting the sale of handguns, their parts, and ammunition to other than law enforcement agencies or Federal or State governments for military purposes.

### **Establishing a State Gun Control Agency**

The commission urges the enactment of State legislation establishing and funding a State agency authorized to purchase all voluntarily surrendered handguns, and further authorized to register and modify handguns to be retained by private citizens as curios, museum pieces, or collector's items.

### **Prohibiting the Private Possession Of Handguns**

The Commission further urges the enactment of State legislation not later than January 1, 1983, prohibiting the private possession of handguns after that date.

# Handguns In American Society

This is Page 340 which was found in the governor's "Master Set of Standards and Goals". Page 340 is a summary of Chapter 9, the Handgun Chapter of the book entitled: "A National Strategy to Reduce Crime." which was written by the "National Advisory Commission on Criminal Justice Standards and Goals." Senators Arlen Specter and Richard Lugar were members of this commission. They worked with the federal group called the "Law Enforcement Assistance Administration" (L.E.A.A.). L.E.A.A. entered California by way of a 1967 act in California called the "Deukmejian-Moretti Act. This Act anticipated the passage of the "Omnibus Crime Control and Safe Streets Act of 1968" (aka Gun Control Act of 1968). The L.E.A.A. put the state under federal dominance. The motto of the L.E.A.A. was "We seek a disarmed populace....there can be no right of privacy in regard to armaments." Director Dean Morris said: "The U.S. should move expeditiously to disarm the civilian population, other than police and security officers....no one should have a right to anonymous ownership or use of a gun. That is not a right we can safely allow anyone." Not until the L.E.A.A. had achieved the missions that were assigned to it did it disband in April of 1982, after having nine years to work the state over to achieve its assigned objectives.

## RECOMMENDATIONS

### Enforcement of Current Laws

The Commission recommends that existing Federal, State, and local laws relating to handguns be strenuously enforced. It further recommends that States undertake publicity campaigns to educate the public fully about laws regulating the private possession of handguns.

### Penalties for Crimes Committed with a Handgun

The Commission urges enactment of State legislation providing for an extended prison term with a maximum term of 25 years for committing a felony while in possession of a handgun.

### Stop-and-Frisk Searches

The Commission urges the enactment of State legislation providing for police discretion in stop-and-frisk searches of persons and searches of automobiles for illegal handguns.

### Prohibiting the Manufacture of Handguns

The Commission urges the enactment of State legislation prohibiting the manufacture of handguns, their parts, and ammunition within the State, except for sale to law enforcement agencies or for military use.

### Prohibiting the Sale of Handguns

The Commission urges the enactment of State legislation prohibiting the sale of handguns, their parts, and ammunition to other than law enforcement agencies or Federal or State governments for military purposes.

### Establishing a State Gun Control Agency

The Commission urges the enactment of State legislation establishing and funding a State agency authorized to purchase all voluntarily surrendered handguns, and further authorized to register and modify handguns to be retained by private citizens as curios, museum pieces, or collector's items.

### Prohibiting the Private Possession of Handguns

The Commission further urges the enactment of State legislation not later than January 1, 1983, prohibiting the private possession of handguns after that date.
