

*This is a protest by an Indiana resident. I suspect it ties to E.O. 12803 also!*

I understand that a vote will be taken today on this toll road fiasco. The workings of this deal has never been fully explained to the residents of Indiana to get their reaction. This is supposed to be a government of the people, by the people, and for the people. You owe it to the people who voted you into office to explain to them all of the terms of this transaction. The money that our governor is in such a hurry to take will be there six months from now, just the same as it is now.

This toll road should not be voted on today. If this project is good enough that foreign money is available for it, that money is not available just for the good of Indiana's economy. If Indiana's economy is so bad, why don't we figure out how we got that way and fix the problem. I don't believe we should be grabbing foreign money as an answer, that is as idiotic as George Bush selling 6 of our seaports. Aren't you people the least bit suspicious. If this is so good, you should all be for it, but you are not. Thank God for that.

You politicians who are planning on voting for this foreign money toll road project, should, in good faith, explain all of the information and complete workings of what you are voting for and why. Does it make sense to you that George Bush has asked Congress for, I believe 67 billion dollars more for the war in Iraq, and then he sells 6 of our seaports for 6.8 billion dollars to the Arabs, and Indiana is about to tke money from a foreign country to build our roads.

I am told by one of you politicians that the toll road is already in, and that 3.8 billion dollars of foreign money is available immediately. In return, the providers of the money, will get the income from the toll road for 75 years. Obviously, they are expecting that road to pay them very well. It does not show good judgment to make a quick dollar now and take a 75 year income out of Indiana's economy.

Take this decision to the people! You do not have a unanimous vote for this and you do not have the right to tie up the economy of Indiana and her residents for the next 3 generations!

An informed concerned Indiana voter!

*How can we be sure that the foreign investors don't already own this toll road thru E.O. 12803?*
