

If you want a Job, Vote the Incumbent Democrats Out of Office this Nov. 2nd!

By Elliott Graham, Chairman of Voters Against Corruption And Tyranny (vacat.us)

Here are the main reasons why unemployment is so high and how we must change our government and it's policies in order to restore job creation:

1. Repeal the "free" trade agreements (including NAFTA, CAFTA, GATT, etc) that have caused too many corporations to export our American jobs overseas by outsourcing and importing foreign made products that have caused our factories to close down.
2. Eliminate labor unions and repeal minimum wage laws that cause the hiring of very few over paid employees instead of hiring more employees at fair natural market wages so that everyone can have a job.
3. Secure our borders better by having our U.S. Border Patrol hire and train the many U.S. military troupes that are now returning from Iraq.
4. Prosecute employers that hire illegal aliens, deport criminals who disobey our laws and those who overstay their visas.
5. Re-instate duties and tariffs on foreign made goods.
6. Eliminate foreign aid give-a-ways and dues payments to the United Nations that hate America and Americans.
7. Stop welfare benefits and "free" services to illegal aliens and do not grant amnesty to these lawbreakers.
8. Cut out all wasteful spending including "pork barrel" projects and unnecessary government agencies and the hiring of too many overpaid government bureaucrats and employees.
9. Build many more nuclear power plants and drill for oil and natural gas on land such as in ANWAR in Alaska and become energy independent, so that we do not have to import these from terrorist countries that hate America and Americans.
10. Eliminate birth right citizenship of children of illegal aliens.
11. Reduce tax rates and fees so that small businesses can hire more people
12. Vote the Democrat incumbent "Representatives" out of office that have caused these problems by replacing them with their opponents who will do all of these things mentioned above. If a Republican candidate refuses to do this then consider another choice, such as an American Independent candidate or a Libertarian candidate if there is not an American Independent candidate on the ballot.
