

WOULD YOU TRADE THE UNITED STATES CONSTITUTION

IN --- FOR THIS?

This page lists conditions the New World Order is working to bring to you:

- **No national Army, no Navy, no Air Force, and no State Militias.**

Military bases dismantled. No national defenses. The world government will have the only army in the world and no nation will be able to challenge it. (See Pub.Law 87-297 and State Dept. Publication No. 7277, Blue Print for the Peace Race)

- **No more states, no more counties, and no more special districts.**

No more local control. The former structural framework of American government is being replaced by international regional units of United Nations administrative control. Action is underway to abolish American states and their subdivisions (see L.A.Times 8-25-92 article: Dis-United States; 10 Region Substate District Planning Map).

The California Speaker of the Assembly, Repr. Willie Brown, offered a proposal to abolish cities and counties. (L.A.Times October 25, 1987). County Regional Planning Agencies are working to dissolve county governments. Considering itself to be the "Federal World Government", the United Nations now addresses countries over the world as its "states". Regional government has always been international U.N. government.

- **No more American 1789 United States Constitution.**

Several socialist replacement Constitutions have been written to replace the 1789 U. S. Constitution and are now on standby. (see Center for the Study of Democratic Institutions' "World Constitution", the United States "Newstates Constitution", the "Federation of the Earth" Constitution, "United Nations Charter", and "U.N.I.D.O.", etc.) any one of which could be more forcefully imposed under circumstances of an economic depression.

- **No more 1791 Bill of Rights.**

The International Bill of Rights, also known as the Human Rights Treaties (communist in structure), replace the 1791 Bill of Rights. No more recognition of inalienable rights and unrepealable endowments from the Creator. Rights in the Human Rights Treaties *are* repealable by man and can be modified according to international law.

- **No more Declaration of Independence.**

On January 30, 1976 a ceremony was held by the World Affairs Council in Philadelphia. Some members of the United States Senate and House of Representatives signed a "Declaration of INTERdependence" "to establish a New World Order".

- **No more state, national, or personal sovereignty.**

The checkless, cashless society is requiring that a computer chip the size of a grain of sand be placed inside of a credit card to govern individuals. Later it will be inserted under the skin of the right hand. Too, state and national boundaries will disappear. No common defense will be provided. Without firearms, no sovereignty of any sort remains.

•No more system of self-government

Elected representation to be replaced by non-representative government. No more right to vote. "Privatization is now 'an idea whose time has come' .The knowledge, communication, and computer industry can make political representatives obsolete."(Willard Garvey to Ronald Reagan) A self-appointed elite intends to rule in the "regions" which are to replace the American states. An oppressive social order to be installed which does not permit people superior power over New World Order principles and rulers.

•No more right to recall, initiative, or referendum.

These functions of Constitutional government are not provided for under international government management. No right to control those who will have a *greater hold* over people's lives under a new world order than did the former public officials.

•No more private ownership of land.

United Nations policy on land states, "Land, because of its unique nature and the crucial role it plays in human settlements, cannot be treated as an ordinary asset, controlled by individuals...." (see National Association of Realtors, July 12, 1982 announcement of FIABCI effort to change U.N. policy).

•No more right to withdraw.

The New World Order is being written in "In Perpetuity". Although there are no withdrawal rights, repeal of the United Nations Participation Act and Amendments would dissolve membership in the New World Order.

- In addition: There will be no more freedom of *religion*; no right to fully operate *your own business* ; no assured right to choose where you will *live* or where you will *work*; no assured right that you may raise your child according to *your own values*; no right to freely use *your own car*; no more assured *freedom of speech*; no right to own a *firearm***; no more "*consent of the governed*" (An American principle of law); no more *industrial society* for the U.S.A.

- Human nature is to be *altered*. The world is to be run by *social scientists*. After the Program for General & Complete Disarmament has been fully effected, military concepts will be integrated on the *regional levels*, and a *militarized governmental system* will prevail.

THAT'S WHAT THE NEW WORLD ORDER* OFFERS YOU!

*No checks and balances, no where to turn when evil men take office. The government of the New World Order will become the world's tyrant. There will be no other government to which the people can turn. Built in safeguards are not there.

**One of the new C.S.D.I. constitutions says: "No person may possess a lethal weapon..." (Article VIII Section 12) . World government will fail and prove that it was a serious mistake for the people to allow it to destroy the 1789 Constitution.
